Subject: South Fork

Hi Pat,

Thanks again to you and the whole team for dealing with all extra interest and lift with regard to South Fork. I'm assuming things went as well as could be expected yesterday with OGC and OAQPS, so I hope there's no new news from what we hoped would be a path forward since last Friday's discussion.

Nothing new on this end with further South Fork related info. If we hear anything more about your invite to the certain event in late January, we'll call you on the Bat Phone!

All the best—and seriously, let me know if there anything I can ever do to help you all out!

Scott
